LITHUANIAN BANKS

Cordially invites product owners and developers to the seminar

Open banking: explore PSD2 APIs

this May 8, 13:00 – 18:00

at ISM University of Management and Economics
(Vilnius, Arklių Str. 18, building 2, auditorium 113)

By working together and taking advantage of APIs, banks and fintech firms can leverage the complementary strengths and enhance the customer experience. In order to foster the cooperation and share the expertise, we organize a panel session, where together with banking experts will cover relevant topics of TPP licensing and practical usage of APIs.

Moderator: Mantas Zalatorius, President of the Association of Lithuanian Banks
